

Lighting Global Product Testing Verification Nuru Light + PV Module September, 2012 (valid until September, 2014¹)

Reference #: nuru-pv-2012

This verifies that the Nuru Light + PV Module was tested according to the Quality Test Method in the latest edition of IEC 62257-9-5² and **passed** the Lighting Global Quality Standards³ listed below.

Documentation:

Specifications sheet with verified test results and original version of this verification:
<http://www.lightingglobal.org/specs/nuru-pv>

Testing Details:

Company Name: Nuru Energy
Company Contact: Sameer Hajee, info@nuruenergy.com
Sample Procurement Date: April, 2012
Sample Size: n=6
Sample Procurement Method: Random warehouse sampling
Testing Laboratory: Schatz Energy Research Center, Arcata, CA USA

Quality Standards:

- Truth in Advertising:** Accurate Labeling (e.g., rated run time, battery capacity, PV power)
- Lumen Maintenance:** At least 70% of initial brightness maintained over 2000 hours of operation
- Quality:** Passed basic durability and quality checks

Notes:

This product also passes Lighting Africa's Recommended Performance Targets.

Arthur Itotia Njagi
Program Manager, Lighting Africa

Note: This verification applies only to the package of components described above, including the lamp and PV module. Packages with different components will have different durability and performance.

¹ Lighting Global requires re-testing every two years or upon major product revisions, and in special cases reserves the right to grant an extension on results validity.
