## Performance Details

Performance Measure	Brightness Setting***	
	Bright	Energy Saver
Full battery run time* (hours)	8.2	34
Run time per day of solar charging* (hours)	7.8	33
Total light output (lumens)	28	6.8
Total area with illumination > 50 lux** (m <sup>2</sup> )	--	--
Total lighting service (lumen-hours / solar-day)	220	220

\* Run time estimates do not account for mobile phone charging or other auxiliary loads; the run time is defined as the time until the output is 70% of the initial, stabilized output.

\*\* Total area with illumination > 50 lux is determined by the maximum area with adequate illumination at a 0.75 m distance and at the distance from which the product would normally provide task lighting service.

\*\*\* Additional brightness settings (not tested): Super Bright, Medium, SOS
