Performance Details

Performance Measure	Brightness Setting***	
	High	Medium-High
Full battery run time* (hours)	3.8	9.2
Run time per day of solar charging* (hours)	3.4	7.8
Total light output (lumens)	140	85
Total area with illumination > 25 lux** (m ²)	0.93	--
Total lighting service (lumen-hours / solar-day)	476	663

* Run time estimates do not account for mobile phone charging or other auxiliary loads; the run time is defined as the time until the output is 70% of the initial, stabilized output.

** Total area with illumination > 25 lux is determined by the maximum area with adequate illumination at a 0.75 m distance and at the distance from which the product would normally provide task lighting service.

*** Additional brightness settings (not tested): Medium-Low, Low
