Performance Details

Performance Measure	Brightness Setting***	
	Ultra	Bright
Full battery run time* (hours)	5.7	14
Run time per day of solar charging* (hours)	5.5	11
Total light output (lumens)	125	66
Total area with illumination > 50 lux** (m ²)	0.22	0.11
Total lighting service (lumen-hours / solar-day)	690	730

* Run time estimates do not account for mobile phone charging or other auxiliary loads; the run time is defined as the time until the output is 70% of the initial, stabilized output.

** Total area with illumination > 50 lux is determined by the maximum area with adequate illumination at a 0.75 m distance and at the distance from which the product would normally provide task lighting service.

*** Additional brightness settings (not tested): Night light
