## Warranty Information

A 1-year warranty covers defects in manufacturing under typical use (see detailed terms for more information).

## Performance Details

Performance Measure	Brightness Setting***	
	Two lamps	One lamp
Full battery run time* (hours)	5.3	11
Run time per day of solar charging* (hours)	2.9	5.7
Total light output (lumens)	76	38
Total area with illumination > 25 lux** (m <sup>2</sup> )	0.92	0.46
Total lighting service (lumen-hours / solar-day)	220	220

\* Run time estimates do not account for mobile phone charging or other auxiliary loads; the run time is defined as the time until the output is 70% of the initial, stabilized output.

\*\* Total area with illumination > 25 lux is determined by the maximum area with adequate illumination at a 0.75 m distance and at the distance from which the product would normally provide task lighting service.

\*\*\* Additional brightness settings (not tested):
