sunkingsolo

Valid Until: July 31, 2015

## **Warranty Information**

A 2-year product warranty.

Performance Details	
	Brightness Setting***
Performance Measure	Turbo
Full battery run time* (hours)	5.8
Run time per day of solar charging* (hours)	5.4
Total light output (lumens)	51
Total area with illumination > 25 lux** (m <sup>2</sup> )	0.34
Total lighting service (lumen-hours / solar-day)	280

<sup>\*</sup> Run time estimates do not account for mobile phone charging or other auxiliary loads; the run time is defined as the time until the output is 70% of the initial, stabilized output.

<sup>\*\*\*</sup> Additional brightness settings (not tested): Torch, Lantern

Lighting Details	
Lamp type	LED
Description of light points	Two LEDs; one LED used per setting
Colour characteristics	CRI 60
	CCT "Near Daylight" (3000-5000 K)
Distribution type	Wide
Lumen maintenance	94% of the original output remains after 2,000
	hours run time

<sup>\*\*</sup> Total area with illumination > 25 lux is determined by the maximum area with adequate illumination at a 0.75 m distance and at the distance from which the product would normally provide task lighting service.

Hardware Task lighting High-intensity "Torch" setting for task lighting  Charging indicator Blinks 1 ("slow") to 5 ("fast") times to provide user feedback for better solar panel installation  Durability Overall durability and workmanship Durability tests passed Drop test, switch and connector cycling, strain relief test, physical ingress protection test, and protection from frequent rain	Special Features	
Charging indicator  Blinks 1 ("slow") to 5 ("fast") times to provide user feedback for better solar panel installation  Durability  Overall durability and workmanship  Durability tests passed  Drop test, switch and connector cycling, strain relief test, physical ingress protection test, and protection from frequent rain	Hardware	Steel stand included
Durability Overall durability and workmanship Durability tests passed Drop test, switch and connector cycling, strain relief test, physical ingress protection test, and protection from frequent rain	Task lighting	High-intensity "Torch" setting for task lighting
Overall durability and workmanship  Durability tests passed  Drop test, switch and connector cycling, strain relief test, physical ingress protection test, and protection from frequent rain	Charging indicator	
Durability tests passed  Drop test, switch and connector cycling, strain relief test, physical ingress protection test, and protection from frequent rain	Durability	
relief test, physical ingress protection test, and protection from frequent rain		Pass
	Durability tests passed	relief test, physical ingress protection test, and
Solar Details	Solar Details	
PV module type Amorphous silicon	PV module type	Amorphous silicon
PV maximum power point 0.78 watts	PV maximum power point	0.78 watts
Battery Details		
Battery replaceability Easily replaceable with common tools		• •
Battery chemistry Lithium iron phosphate		
Appropriate battery protection circuit Pass		
Replacement batteries, as well as replacement battery specifications, are available from the product manufacturer		specifications, are available from the product
